****Appleton's Harley Davidson was built on this site after the original shop on Kraft Street was destroyed by the tornado that devastated Clarksville in the winter of 1999. Appleton's HD has continuously sponsored and supported the Tuckessee H.O.G. Chapter #4894 for over 20 years!****

****For a short side trip at mile mark 33.1 take a left turn to Lock A Cheatham Dam. The road has a couple of sharp turns but after a short distance you will come to the Cumberland River. This is an excellent place to relax and watch the river flow by. There are benches along the river and paved parking lots.****
